- Crusade for Life Director San Gabriel Valley chapter and Downey chapter
- Crusade for Life Board Member
- Sidewalk counseling, Pregnancy Help Center and Maternity Home Director
- Co-founder and Director for His Nesting Place Ministries

Dr. Judy Howard gave her life to Christ in 1972. In 1973, the Lord gave her a heart and a burden for the unborn babies that die through abortion. She knew she had to respond; she had to do something to make a difference. That same year she became director of Crusade for Life Chapter in the San Gabriel Valley area. She began going to as many churches, high schools and anywhere she could endeavoring to educate and arouse them to the horror of abortion and what this door of death could lead us into as a nation. Black and white slides were her first educational tools along with a slide presentation from Crusade for Life.

Dr. Judy married Dr. Al Howard in 1979 and tried lovingly to get him involved to help her in this righteous cause. He did not respond until 1983 when with a broken heart, they answered the call together. Dr. Judy was co-pastor along side of Dr. Al as the director of His Nesting Place Church, Maternity Home, Pregnancy Help Center, and Thrift Store for 32 years. They founded this ministry in 1983 and have been found faithful. She is also the mother of her own large family, having raised 10 boys (3 are stepsons, 1 adopted) and 3 girls (2 are step daughters).

Dr. Judy Howard is an experienced conference speaker and teacher. Since 1981 she has faithfully and consistently placed herself at the doorway of abortion clinics, lovingly and tenderly turning mothers away from aborting their babies and at the same time leading many to Jesus. Thousands of babies are alive today that otherwise would have been lost to the abortionist's knife.

As the director of His Nesting Place, Dr. Judy has gained experience and wisdom as a counselor to women in crisis. To the residents of His Nesting Place she fills the role of a mother figure. Many of the women who live in the home have never had a close loving relationship with their natural mother; Dr. Judy fills that void in their lives with tenderness and compassion. This woman of God indeed wears many hats and she wears them all well. She will always hold a special place in the hearts and lives changed and touched by her. She will always be looked up to and admirably be called Mama by all the mothers and staff of His Nesting Place.
