

Raising Life Loving Kids

Welcome

Thank you for considering this pro-life curriculum. We have endeavored to put together many suggestions to aid in teaching the pro-life message whether you are a Sunday School Teacher, CCD or Confirmation Teacher, Youth Leader, Christian School Teacher, Homeschooling Parent or a parent/grandparent. It is not meant to replace your current curriculum; rather, it is intended to be a supplement to your existing curriculum.

The curriculum is divided into four (4) units entitled **Raising Life Loving Kids**. The PDF pages are formatted so that they can be printed and placed into a 3-ring binder. They include suggestions and ideas for teaching pro-life in a class at a church or at home from infancy through adulthood. The additional materials listed at the end of each unit are to help a person acquire more information on these important life-learning lessons.

We realize that whether you print the web pages, or the PDF version, the links will not be hot. Therefore it will be necessary to download most of the suggested material separately if you do plan to use a three ring binder. As you will see the PDF version has numbered pages for easier referencing.

We all have children and young people in our lives who need to hear and learn the pro-life message. It is an exciting message as we are all made in God's image, God hears our prayers and we can have an impact on future generations. God bless you as you reach out to impress on young minds the importance of all life – born and unborn.

Please send any comments and suggestions on this curriculum to:
